Dear Michael:

Well your Resiliency for Life presentation was a big hit. I just went through our event evaluations and 230 were returned. From a scale of 1-10 you scored an average of 9. Plus they want you back!

One comment from a participant I wanted you to get was: Thank you for blessing us with your introduction to Resiliency For Life..... Your skills at pulling a group together and keeping aging adults focused are exemplary....my hat is off to you.

Best regards,

Betty Cornelius  
Founder of CANGRANDS National Kinship Support

P.S. I trust your trip home went well.
