Dear Mike

What a wonderful seminar!! I got home imbued with a feeling of exhilaration (so I lay down until it went away). But honestly, I think you have extrapolated on an idea whose time has not only come but is probably long overdue. Not only do I feel that it is of immense benefit to prospective patients, I feel strongly that others will also receive valuable enlightenment - people such as family members (those inside and outside the household), health care professionals, colleagues, neighbours and clergy to mention a few.

I thoroughly enjoyed your style of presentation. It was not only insightful, but warmly and wittily presented with a good number of proven, practical suggestions. Particularly, apropos for me was the fact that it gave me a jumping off point for discussions with my son.

I wholeheartedly endorse your useful program and, should you ever need a reference, please do not hesitate to contact me. My only regret is that I was not able to attend earlier. Keep up the excellent work. You are needed. God Bless You.

Sincerely

Jeanne Taylor
