Michael:

This note is to express our sincere appreciation to you for graciously donating your time and talents to speak to our Grade 8 classes on February 2nd. I'm sure there was no correlation between this being Ground Hog Day and having you speak at our school. Nevertheless on behalf of the students and staff please be assured that this was a highlight for our classes.

Positive feedback has been received from students and staff and the emphasis on developing a positive self image and feeling good about yourself are excellent messages for our students. As Lisa, "who is our spokesperson" said, it was well received and students benefitted greatly from your discourse and interactions with them.

Thank you for sharing the video tape "It's not what happens to you, It's what you do about it". Classes have viewed it and found it quite helpful as well. The book which you suggested, The Enlightening of Empowerment - "Zap". I purchased this book on Saturday and found it very captivating; was unable to put it down until I completed it on Monday.

Again, thank you very much for your work and interactions with our students. We certainly appreciate your effort and I will be in touch with you in the not too distant future to book a session for our staff on a P.A. Day, - likely in August of 1993. Many thanks.

Sincerely,

George
