Dear Michael,

On behalf of all the staff at Tweed & District Community Health Centre, the volunteers who worked with me in organizing the day, and the workshop participants, I would like to commend you on your excellent presentation at our Women's Health Workshop "Here's Looking At You!", May 9, 1992. It was clear from the standing ovation you received and written evaluations of the day that your message in "Humour - Stress & Change" had a definite impact on this audience. Your presentation style and your enthusiasm laced with humour made it easy for all of us to listen and learn!

I most appreciated your availability to this community and this workshop. There have been many calls for a second women's health workshop and it would please us greatly if you could return sometime in the future! I wish you and your family all the best, and hope you continue to motivate and challenge audiences for many years to come.

Your's in health,

Wendy Pollard BScN, RN
Community Health Nurse
